

# Most Common Pests in Vegetables and Fruits in Virginia

David Cappaert, Bugwood.org

Tuesday, December 5, 2023 · 6–8 pm · **FREE**  
Buckingham County Extension Office  
54 Administration Lane Buckingham, VA

Lorena Lopez, postdoctoral research associate at the Virginia Tech Eastern Shore Agricultural Research and Extension Center, will discuss the most challenging pests in vegetable crops such as squash, tomatoes, peppers, and potatoes, as well as fruits like strawberries and blueberries. She will describe different ways to monitor, suppress, and manage these pests using cultural practices, biological control, and low-risk pesticides.
