

Recordkeeping on your Computer or Smart Phone

October 12, 2022 · 10 am–12 pm · **FREE**
Space is limited to 20 participants
Join Us on Zoom!

Farming is a business, and good recordkeeping is essential for a successful farming operation. Using the tools you have, you can keep thorough records. These records will provide valuable information on which methods work best on your farm. They can help plan a realistic forecast for the coming year and may also be a requirement for lending institutions. Greg Carter will lead this workshop. He grew up on a small farm but worked in the corporate world. After retirement, Greg returned to his roots and started a small diversified farming operation, using the lessons he learned in business. Now he shares this knowledge with other farmers.
