Accompany Michael Carter Jr. at Carter Farms and be an auditor for the evening and audit the farm with your own (Carter Farms will provide) food safety plan and see how close to GAP certification the farm will be.

Michael Carter, Jr., coordinator of the Virginia Small Farm Resource Center, will guide you through a working, mix use farming operation and highlight do's and don'ts related to GAP certification and requirements.

USDA's Good Agricultural Practices (GAP) certification is achieved through voluntary audits performed by USDA federal or state agency representatives that verify that fruits and vegetables are produced, packed, handled, and stored as safely as possible to minimize risks of microbial food safety hazards.
